

SHUJAAH MASOOD

Software Engineering Graduate | Quality Assurance, Testing & Data Validation
Islamabad, Pakistan | +92 320 5995323 | aries3672@gmail.com | linkedin.com/in/shujaah-masood

PROFESSIONAL SUMMARY

Detail-oriented Software Engineering graduate with hands-on project experience in testing and validating a mobile application and a business analytics dashboard. Skilled in designing and executing test cases, reporting defects, verifying fixes, and validating data across SQL, Excel, and API sources. Comfortable with the SDLC, Agile practices, and technical documentation, with a strong analytical mindset and quick learning ability. Seeking an entry-level or internship role in software, quality assurance, or data where I can contribute immediately and keep growing.

TECHNICAL SKILLS

Testing & QA: Manual testing, test case design and execution, functional testing, regression testing, usability testing, defect reporting, bug verification

Data & Databases: SQL, data validation, ETL output checks, Power BI, Excel, Google Sheets, Firebase

Development & Tools: REST APIs, Git/GitHub; exposure to Flutter and Dart

Processes: Software Development Life Cycle (SDLC), Agile, technical documentation, role-based access testing

Professional: Analytical thinking, attention to detail, clear written communication, teamwork, problem solving

PROJECT EXPERIENCE

Home Management System | QA Testing | Flutter, Dart, Firebase

- Designed and executed test cases for a dual-role mobile application covering user and worker flows, usability, and edge cases.
- Tested authentication, role-based access, real-time status tracking, data synchronization, and database operations across sessions.
- Documented 50+ defects with severity, steps to reproduce, and expected vs. actual results; re-tested fixes and ran regression checks on new builds.

Sales and Business Performance Analytics Dashboard | Testing and Validation | Power BI, SQL, Excel

- Validated dashboard data and visualizations against SQL, Excel, and API sources; checked data consistency across ETL outputs.
- Tested slicers, drill-through navigation, and interactive filters with large datasets.
- Identified duplicate records and calculation issues, and documented findings for correction.

EDUCATION

Bachelor of Software Engineering | Ibadat International University, Islamabad
